MONEY, BONDS AND STOCKS. The New York Market Renews Its Advance and Prices Are Materially Higher.

NEW YORK, Aug. 7 .- Money on call was easy at 1@14 per cent.

Prime mercantile paper, 4; 26; per cent. Sterling exchange was quiet and steady at \$4.85 for sixty-day bills, and \$4.87 for demand. The total sales of stocks to-day were 247,244 shares, including the following: Canada Southern. 8,438; Delaware, Lackawanna & Western, 9.308; Erie, 18,130; Lake Shore, 13,877; Louisville & Nashville, 6,030; Michigan Central, 3,910; Missouri Pacific, 6,200; Northwestern, 3,088; New Jersey Central, 3,200; New York Central, 3,881; Northern Pacific, preferred, 4,598; Reading, 88,320; Richmond and West Point, 5,425; St. Paul, 22,075; St. Paul & Omaha, 5,380; Texas Pacific, 14,450; Union Pacific, 8,993; Western Union, 15,280; Wheeling & Lake Erie, preferred, 9,025.

The stock market to-day renewed its advance and almost everything on the list is materially higher this evening. There was some hesitation in the forenoon, but later in the day the bullish feeling became more pronounced and the upward movement met with no set-back after that time. London had a large number of buying orders in this market this morning, and traders, upon making this discovery, realized on their "long" stocks and afterwards made an effort to get the market down, but the new buying was beavy and the offerings of stocks very limited, and they again became buyers in the afternoon. The news of the day was uniformly favorable, and that from the corn belt was especially encouraging, while the prospects of entire harmony among the trunk lines and granger roads gave an impetus to the speculation. The bullish feeling ran highest on the Vanderbilts, and several stories were affoat in regard to negotiations for large blocks of those stocks, especially Lake Shore, and, while the street believes that it is not clear that the Insiders are buying more stock, it is evident that they are not selling and the demand is beavy. Many of the leading stocks this afternoon sold at the highest prices in months, and, notwithstanding the liberal offerings at times in several of the leaders, no marked impression could be made upon them. Lackswanns was subjected to the heaviest pressure, and a portion of its yesterday's advance was lost, but the other coalers were all active and strong, though their gains were confined to fractional amounts only. As usual, of late, many of the specialties made sharp advances, and Pullman, Manhattan and Evansville & Terre Haute were conspicuous. There was a moderately active business at the opening, and prices were | to | per cent above last evening's figures, but the subsequent dealings failed to develop any movement of importance in the list except in certain specialties until after 12 o'clock. Evansville & Terre Haute, C. C., C. & I., and Pullman were the only stocks showing any decided strength throughout the forenoon, but after that the entire list showed marked strength, and Michigan Central assumed the lead in the advance. Other stocks afterward came to the front, and the upward movement met with no check whatever, the market finally closing active and strong at the best prices of the day. The entire active list, with a few unimportant exceptions, is higher.

The railroad bond market was again very quiet, and the number of issues traded in was unusually small, while they were generally of the speculative variety. The sales of all issues aggregated only \$1,097,000, of which Erie seconds furnished \$93,000. The movements in the list were quite sluggish, though the tone of the market still continued firm, but the only feature of the day was the strength displayed in the Indiana, Bloomington & Western certificates, the firsts rising 4½, to 89½; the seconds 3, to 62, and the Eastern division sevens to 88.

CHICAGO, Aug. 7 .- Wheat was weak and strong by turns to-day, but the tendency was downward. The "bulis" were selling a lot of "long" stuff early, and after the rally, which took prices up very near to the closing points on Monday, they fought the second decline vigor-ously. The cables were not in harmony, but on the whole gave conditions as little improved in France and Germany. The crowd discovered that the bulge at the close yesterday was manipulated, and September opened to lower, with a crowd of sellers, which took the price down to 83 c, or 1 c under last night. When the flurry was over a good buying feeling was created, and on news of wet weather in the Northwest and fair export clearances, the price was advanced le from the bottom point. The last two hours of the session found September between 83fc and 84fc, and stubborn. Wheat closed fc under last night and ic over bottom prices, with September at 83fc. Corn sold with #c range early, but toward the close the changes were very small, and at the close September was but to under the closing price yesterday. The receipts were very liberal-675 cars-and this, together with most encouraging crop reports from some quarters, made the market weak, and prices opened to under and declined a few points. September sold at 45tc, down to 45t 245tc, then the "shorts" began buying freely and the price went up to 46c, and the close was at 45%c. Oats attracted only a moderate degree of attention, with a fair volume of trade and a steady to firm feeling. A fair business was transacted in provisions, but it was of an in-and-out character. Some of the largest traders, who bought freely early, changed and sold before the close. Arrivals of hogs were fair and prices 10c higher. This had a strengthening effect on traders of hog products early. and pork, after a drop of 5c, advanced 15c, but receded 5c, and closed at \$14 42}, a gain of 10c over yesterday. Armour & Co. were the principal sellers. The buying was scattered. Lard closed .02tc lower. Short-ribs were traded in freely, and the closing sale showed an advance of 5c. The leading futures ranged as

#### INDIANAPOLIS MARKETS. Trade Improving with Cooler Weather, with au Active Feeling in Produce.

INDIANAPOLIS, Aug. 7. In nearly all departments there was a good deal of trade in progress to-day. Dry goods men were quite busy showing their fall stocks, which are unusually large, complete and attractive in style. Firmness in prices continues to be a characteristic of the dry goods market. In groceries there was a good movement to-day. In commenting on the condition of the sugar and coffee markets the New York Shipping List says "Staple groceries have remained quiet. There is a decided bull in the demand for refined sugar, notwithstanding that prices have been marked down and are fully a quarter of a cent lower than a week ago. Dealers appear to have stocked up so freely during the recent excite-ment that they are unwilling to replenish until they have distributed what supplies they have accumulated, even at the decline. Importers of raw sugar are of the opinion that refiners have cut prices with the hope of influencing the value of raw, but thus far these tactice have develno weakness among holders, base their confidence on the strong statistical position of the world's supply. The enormous fruit crop that is in prospect promises to stimulate consumption, and the present lull is looked upon as only temporary. Coffee continues dull and featureless, trade being altogether of a hand-to-mouth character, and a general feeling of indifference seems to preval. The produce markets are active. Poultry, with the advance in prices, begins to come in more freely; the country merchants preferring to ship here than to Chicago if as good prices can be realized. Eggs come in slow, and late arrivals show an unusually large per cent. of poor ones owing to the extreme heat of last week. Butter is wanted, if good; a considerable per cent. of the receipts are poor, and meets with slow sale. Apples and peaches, in large supply, and selling at good prices. Good peaches sold to-day at 40 cents per box, and the choicest would not bring more than 60 cents. Apples of good quality sold at \$1.50 per barrel, and it was difficult to get \$2 on the choicest the market affords. There are practically no berries on the market. Oranges and lemons are coming in more freely, but firm in price.

GRAIN. There was a fair attendance on 'Change today, and bidding on wheat was quite spirited. Other cereals attract but little attention. The

movement of grain during past two days shows an increase, as compared with the preceding period, there being inspected 181 cars, as against 158 cars. In wheat the offerings continue free, with a firm demand, both for milling and shipment. No. 2 red is quoted at 83 \$83 c, a few cars selling as high as 84c. No 3 red selling at 78281c, according to quality. Rejected brought as high as 77c, while considerable sold at 652 De; average samples ranging from 70 274c. Unmerchantable salable at 55 265c. Trade in corn is quiet, with a fair demand for white at quotations as below. There is very little doing in oats. Old No. 2 mixed is in good demand at 31 2 32c. New No. 2 mixed we quote at 23 2 24c. New No. 2 white at 26tc. Bran sold at \$12.50. The hay market is strong for both new and old. Track bids to-day ruled as follows:

Wheat-No. 2 Mediteraian..... No. 2 red..... September..... October..... Corn-No. 1 white..... No.2 white..... No. 2 mixed.... Oats-No. 2 white..... No. 3 white .....
